

Do you accept my insurance?

This is one of the most common questions we get at TelePlay Therapy. People want to know if we accept their health insurance for services we provide.

TelePlay Therapy is a self-pay company for its programs. Some insurance companies may cover Occupational Therapy, Speech Therapy, and Child Counseling. We do not file for payment with insurance companies. *HOWEVER, this can be a benefit for you and us!* Depending on your insurance company and the level of coverage, you may end up **paying about the same for services or even less**. Contracting with insurance companies is costly for businesses like TelePlay Therapy. Keeping our payment model as self-pay, we are able to keep our prices affordable.

Check with your insurance company

We provide you with receipts and claims information that you submit to your insurance provider. If your services are covered, your insurance company will mail you a check directly, after you have paid us for services. We will be happy to provide you with all the information you will need!
